Silver Shekel Owners and Residents,

We received this message today from the Red, White and Blue Fire District requesting our cooperation.

***The Fire District has received permit requests and inspected nearly 500 back yard fire pits and wood burning cooking devices in the District but many un-permitted devices remain. Local law enforcement agencies have been receiving public complaints of non-compliant and un-permitted fire rings, etc., some in the Silver Shekel area. We want to ensure that our residents are completely aware of the regulations and the process for a permit.***

***Chief, Jim Keating***

Permits from Red, White and Blue Fire Department are required for fires in residential fire pits and wood burning cooking devices.

[Click on this link](#) to apply for a permit. This is the platform to create your individual profile and then apply for a permit. Once you have applied RWB Fire will perform an inspection prior to approval. The process usually takes several days and will occur Mondays thru Fridays. Once approved, the permit is valid for two years. Currently, there is no cost associated with these permits.

[Click here](#) for more information about the permits and requirements. [Click here](#) for the current local fire restrictions.

If you are an owner renting your property, please forward this message to your tenants.

Thank you for your cooperation.
