Subject: Notice Regarding Chipping Program Piles
Date: July 9, 2020 at 6:54 AM
To:

SS

Silver Shekel Residents,

We received a message from Ceres Landcare, the company that is implementing the chipping program for the county. They have done an inventory of the piles that need to be chipped, and found a handful that have rotted material, stumps etc. that will not be chipped. [Click here](#) for the guidelines for the piles.

They will go through the subdivision again on Thursday or Friday to mark the ineligible piles with **yellow flagging**. If any of your piles are flagged, you could dispose of them this Saturday during the [Clean Up](#) day rather than them being left lying on the side of the road by the county next week. Material will be accepted after 11:00 am on Saturday at any of the dumpsters with available space.

Thank you
