### Noxious Weeds in Silver Shekel

Dear Silver Shekel Property Owners,

The beautiful mountain wildflowers that grace our mountain meadows, trails and roadsides are one of the many reasons we enjoy living in Summit County. Unfortunately, there are a number of these that are considered invasive and noxious weeds by the State and Summit County authorities, and we have a number of them right here in Silver Shekel.

The large expanses of white daisies we see around are likely invasive False Chamomile or Oxeye Daisies. Common Tansy and But and Eggs are also found here as well as Musk Thistle. See the photos below. [Click here](#) for a complete list and descriptions.

If you are not sure about plants growing on your property, you can contact Ryan Cook, the Summit County Weed Control Manager ; 970-668-4218. There is more information the [County website](#). Or you can [contact the SSOA Board](#).

The Silver Shekel Owners Association urges all owners and residents to take the time to get rid of these plants that are on your properties, soon before they go to seed. The best way is by pulling, bagging and disposing of them in the trash.

Properties with large infestations risk being flagged by Summit County Weed Control.

Thank you!

Sincerely,

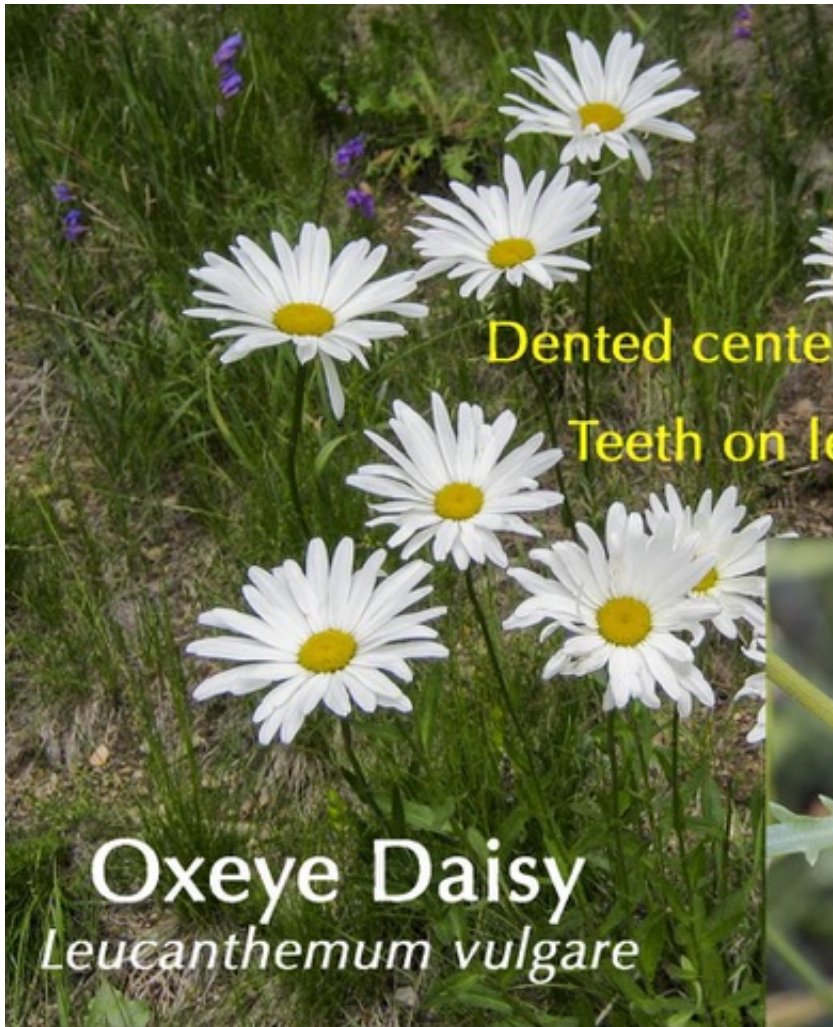

Silver Shekel Owners Association  
Board of Directors
