Dear Silver Shekel Residents,

The beautiful mountain wildflowers that grace our mountain meadows, trails and roadsides are one of the many reasons we enjoy living in Summit County. Unfortunately, there are a number of plants that are considered invasive, noxious weeds by the state and Summit County authorities and we have a number of them right here in Silver Shekel.

The large expanses of white daisies we see around are likely invasive False Chamomile or Oxeye Daisies. Common Tansy and Butter and Eggs are also found here as well as Musk Thistle. [Click here](#) for a complete list and descriptions.

The Silver Shekel Owners Association urges all owners and residents to take the time to get rid of these plants that are on your properties, soon before they go to seed. The best way is by pulling or digging, bagging and disposing of them in the trash.

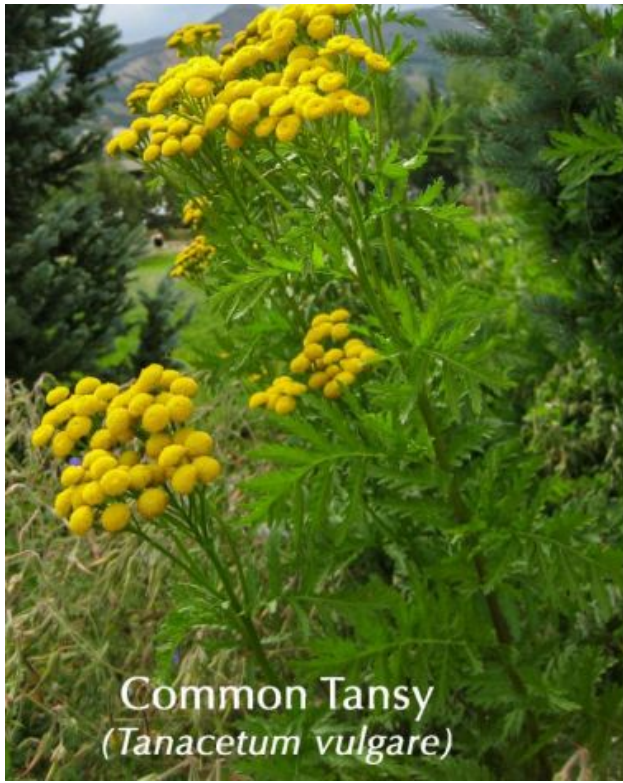

Thank you!

Sincerely,

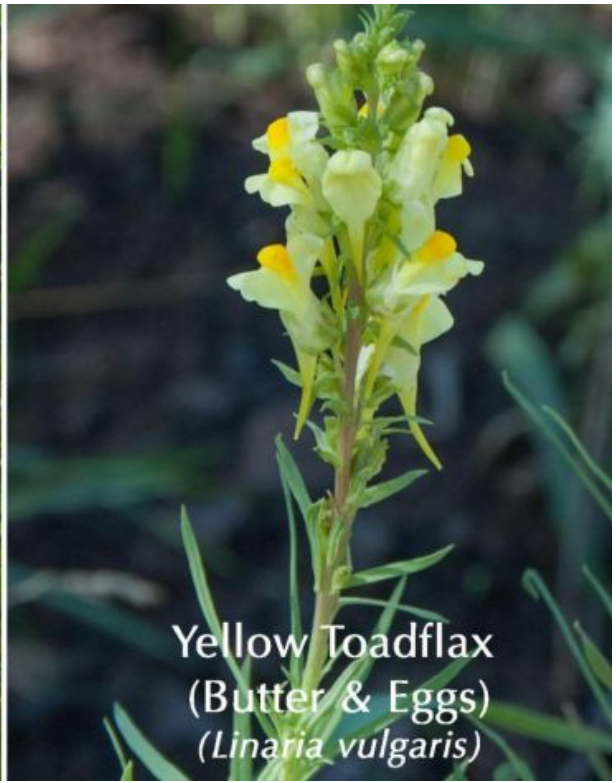

Silver Shekel Owners Association
Board of Directors

Common Tansy
(*Tanacetum vulgare*)

Yellow Toadflax
(Butter & Eggs)
(*Linaria vulgaris*)
