### **Attempted Break-in (Corrected)**

Dear Silver Shekel Property Owners,

We received the following email from a property owner 371 Shekel Lane and they asked us to pass this information on to the neighborhood:

***Attempted Break in.***

*I wanted to also share with you what occurred Monday night, July 10. At about 11:45 our dog, Louie, started barking, which is very odd for him. He doesn't even bark when the UPS man comes. I went downstairs thinking he was telling me something was wrong with our older dog, Oz who is sick.*

*But the Oz was okay. Louie then laid right next to the front door. Also, not behavior that is normal. I looked outside, figured a Moo was outside and went back to bed. A few minutes latter Lou barked again, so I went downstairs again nothing. But then he went crazy. I then heard sounds on our back deck, so I pulled back the curtains and turned on the deck light and there was a man about 9" trying to open our back door. I pounded on the window, and he left. We called the police they search and did not find him. He was not just a drunk lost, because he intentionally dodged the ring camera, which means he climbed over our deck railing and had climb over a doggie gate on the deck.*

*I don't believe this is the first time he has tried this, as last winter when we came up, we noticed footprints in the snow on our deck leading to the door.*

*We did not see or hear a car and I believe the man was on foot.*

***We wanted the association to know and to remind everyone to lock their doors.***
