### **Please Don't Feed the Foxes (or Other Wildlife)**

Dear Silver Shekel Property Residents,

We have quite a few red fox in the neighborhood and we are aware that some residents are feeding them, intentionally or not. **This should never be done.** They are wild animals that can fend for themselves with plenty of other food available, like voles, for exam

Feeding wildlife may be well intended, but it is harmful to the animals and can be dangerous for other wildlife populations, pets and humans. In many parts of Colorado the intentional feeding of red fox is also illegal and should be reported. This does not seem to be the case in unincorporated Summit County, however.

Here are a couple of links that have some very useful information:
